Miele

# MOVE YOUR BUSINESS.

Digital platform for professional laundry management.
Miele MOVE connects commercial washing machines and dryers. An intuitive interface and intelligent tools optimise processes, save time and reduce costs in the modern-day management of machines and data.

Miele Professional. Immer Besser.

Miele
MOVE

Manage Your Data
- Live machine status including performance and programme data
- Performance charts visualising process and operating data, live and historical
- Sophisticated role and rights management

Optimize Your Workflow
- Automatic trouble-shooting reports and simple error messages
- Notifications on machine operation and status
- Service interface for efficient repairs and prompt procurement of spare parts

Visualize Your Potential
- Personalised dashboards for concise overview
- Operating data acquisition and export, e.g. to furnish proof of compliance with hygiene regulations
- Performance analyses for capacity planning

Empower Yourself
- Personalised machine and location designations, e.g. room/floor
- Simple access via smartphone, PC or tablet
- Update centre for software updates (depending on machine)

M O V E

Bringing laundry management to life

Accelerated processes and optimised infrastructure
thanks to customised interfaces and modern analytics tools

Increased process and user safety
through personalised functions and operating data in real time

Improved convenience and greater flexibility
through visible process parameters and an intuitive user interface

Shorter downtimes and faster support
through networked service interfaces and comprehensive all-round support

Increased transparency and exemplary process documentation
through visualised process charts and cross-location data capture

More efficient machine management and simplified administration
through real-time data and automatic notifications

And which package will move your business?
